

IMPORTANT: PLEASE READ

This Stroke Riskometer has been created by AUT Ventures Limited of AUT University (together the **Application Developer**), in collaboration with the New Zealand Stroke Education Trust (**NZSET**), a charitable, non-government organisation.

Your use of the Stroke Riskometer is subject to the following terms and conditions of use:

Your use of this Stroke Riskometer is at your own risk. While we have used reasonable endeavours to ensure that this Stroke Riskometer contains information and data that is accurate and up to date, we cannot guarantee that this Stroke Riskometer is 100% accurate, complete, up to date, or free from errors.

In particular, we cannot guarantee that any stroke risk prediction obtained from using the Stroke Riskometer will be 100% accurate or reliable. A number of factors may impact on the risk of someone having a stroke, and this Stroke Riskometer attempts to identify the most common factors. However, every person is different, and we cannot anticipate or foresee every risk factor that might apply to a particular individual.

Additionally, this Stroke Riskometer is one of many tools available to identify stroke risk. This Stroke Riskometer is not intended as a complete substitute for such other methods. In particular, the information contained in the Stroke Riskometer, and the results obtained from using the Stroke Riskometer, are not intended as a substitute for professional health advice. No person should act in sole reliance on such information or results. If you are concerned about your stroke risk, you should consult a medical professional.

WITHOUT LIMITING ANY OF THE ABOVE, NEITHER THE APPLICATION DEVELOPER NOR NZSET GIVES ANY WARRANTIES IN RELATION TO THE STROKE RISKOMETER, EITHER EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTIES RELATING TO QUALITY, FITNESS FOR ANY PARTICULAR PURPOSE OR ABILITY TO ACHIEVE A PARTICULAR RESULT.

NEITHER THE APPLICATION DEVELOPER NOR NZSET WILL HAVE ANY LIABILITY TO ANY PERSON ARISING OUT OF ANY CLAIM BY ANY PERSON:

THAT THE STROKE RISKOMETER, OR ANY OF THE INFORMATION CONTAINED IN THE STROKE RISKOMETER, IS INACCURATE, INADEQUATE, INCOMPLETE, OUT OF DATE, INACCESSIBLE, OR UNSUITABLE; OR

THAT THE USE OF THE STROKE RISKOMETER HAS CAUSED, OR FAILED TO PREVENT, HARM TO ANY PERSON,

EVEN WHERE SUCH CLAIM ARISES AS A RESULT OF THE NEGLIGENCE OF THE APPLICATION DEVELOPER OR NZSET.

None of the exclusions or limitations set out in these terms and conditions of use will have the effect of limiting or excluding any form of liability where such liability cannot be so limited or excluded under applicable law.

This agreement will be subject to and interpreted in accordance with the laws of New Zealand and will be subject to the exclusive jurisdiction of the Courts of New Zealand.

We do not collect your personal data. All the data you enter into the Questionnaire will be stored on your device only and will not be transferred to any other party, unless you explicitly express your

intention to participate in a research study titled “Stroke Riskometer E-health Research Project”. This study aims to better understand the risk factors associated with stroke. If you wish to participate in this study, you will need to proceed to the “Research” section of the app and sign a Participant Consent Form.

Using the risk calculator is confidential, free, and takes about 3-5 minutes to calculate your personalized risk of stroke within the next 5 and 10 years.

The algorithms for stroke prediction used by this Stroke Riskometer are based on the famous American Framingham Heart Study, and have been enhanced to include additional variables shown to be important risk factors for stroke.

Although this calculator estimates the risk of stroke, it can be used to inform you of the risk of having a heart attack. If you find out that you are at an increased risk of having a stroke, you are at an even greater risk of having a heart attack. The Stroke Riskometer recommendations for preventing a stroke also apply to prevention of a heart attack.

To use the risk calculator, simply enter all your details and then press the 'calculate' button
