

Stroke prevention starts with a simple check.

At your pharmacy?

Talk to your pharmacist about a free **Stroke Riskometer** assessment.

At your GP clinic?

Discuss **PreventS-MD** and **Stroke Riskometer** companion App to manage your health.

Meet David, 62, a retired school teacher.

During a blood pressure check at his local pharmacy, David discovered his stroke risk. Guided by the staff, he now adheres to his medications and promotes health screenings to others. This quick check has empowered David to manage his health confidently.
